Thank you for joining us for our 4th Annual Auction

Pymat is proud to play an active role in the game industry - a community where friendships thrive and mutual support is highly valued.

Committed to continual improvement, Pymat strengthens its herds through selective breeding and the acquisition of exceptional animals. Over the past three years, we have upgraded our breeding programme with 36" waterbuck bull Ducati to improve our waterbuck herds, 38" red oryx bull Flannigan, and buffalo bulls selected for strong RW and high SCI scores to add volume and spread. These include Optima, who recently measured 53" with an SCI score of 144 % and 50 % Raka (138"+), son of Big Mac. For our Western Zambian sable herd, we added 55" Mosifa, sired by 52 1/8" BZN and a paternal brother to 62 3/8"+ Armstrong. We look forward to his first calves this season and to offering buyers these distinctive and powerful genetic combinations.

We are delighted to present another carefully selected group of animals, each chosen for its potential to enhance any herd.

We hope Saturday, 22 August 2026, will be as meaningful to you as it is to us. Thank you for joining us, whether in person or online.

We value your support and wish you every success with your bidding.

Pieter, Yvonne, André and Melissa.
